

BULLOO BUZZ

AUGUST 2022

Mayor John 'Tractor' Ferguson

Deputy Mayor Girdler, Cr Dogga, Cr Collins and myself attended a meeting with Telstra executive, May Boisen, Scott Mullaly and Jonathan New on 21 July.

May started the meeting to update Council on the backup generator, that will be installed at the exchange in Thargo. The outcome will enable recharging the battery unit to maintain mobile coverage during an extended period of power outage.

Jonathan outlined that the mobile signal in Hungerford supports only new phones with 4G capability and if you have an old phone then it won't work; he mentioned that in Thargo the signal supports both 3 and 4G; however, Telstra will be replacing the 3G signal within the next couple of years. Scott is happy to come and work with Tamie and her team and explain to shire residence the capability of their devices and what to check when purchasing a new phone. Scott mentioned that just because you purchased iPhone 6 from eBay, there is no guarantee that it will work here as it may have been configured for Europe or China.

Another point that was brought to Council information, is something called IOT or Internet Of Things, it's a low speed low data network introduced by Telstra to allow supporting infrastructure to receive and transmit critical information. Such application covers automated river gauges, and digital road closure signs. Using IOT devices, will allow receiving and sending data remotely. We provided the Telstra team with Council's priority for mobile coverage being Noccundra and Cameron Corner; they mentioned that they will work with us and support our case to extend coverage to these locations.

The prices received for Spa Gazing and Canteen projects were significantly higher than the allocated budget. Several contributing factors most critical one was an elaborate, sophisticated design compared to what Councillors originally wanted which is a simple design that produce elegant outcomes more suitable to outback southwest QLD. A report will be presented to August Council meeting providing lower cost alternatives and deliver these projects which has been on the books for some time.

MAYOR
John 'Tractor' Ferguson

2022-23 Budget

Council approved the 2022-23 budget with key highlights:

- Council Operational Income \$18.06 M
- Council Operating Expenses -\$16.69 M
- Annual Depreciation -\$7.65 M

Capital works approved is \$14.2 M funded by:

- Capital Grants \$8.30 M
- Trade-in \$0.93 M
- Council own funds \$7.65 M

A summary of the main budget items are listed below.

Project Name	Allocated Budget	Funding
Shire Road Maintenance	\$1,023,400	Council
TMR – State Highways	\$2,094,000	TIDS (2022-23 and 23-24 Allocation)
- Quilpie Road Upgrade & Seal	\$1,538,690	TMR
- Routine Maintenance		
Security Cameras		
- Council Depot	\$47,000	Council
- Warri Gate Camp		
- 2 Cameras in Thargomindah		
Visitor Information Centre		
- Storage Shed	\$80,000	Council
- Drone		
- Camera		
Buildings & Council Facilities		
- Finishing up the new houses on Frew Street	\$3,779,025	Grant Funding + Council
- Hot Bore Bath		
- New Toilets – Sports Ground Thargo		
- Golf Club – Cladding & Guttering		
- Noccundra Sport Ground Canteen		
- Thargo Sport Ground Canteen & New Toilets		
- Thargo Swimming Pool Paint & Upgrade		
- Transfer Station Improvements		
Stormwater Drainage		
- Stormwater drainage Frew Street	\$883,164	Grant Funding + Council
- Patching - Bulloo River Weir - Thargomindah		
- Patching - Hungerford Crossing (Bypass Rd)		
- Stafford Street Minor Culvert Replacement		
Road Reconstruction & Culvert Replacement		
- Bulloo Down Rd - Re-alignment & Culvert Replacement	\$848,921	Road to Recover (R2R)
- Besm Road Culvert Replacement		
- Racecourse Rd - Resheeting		
Water Infrastructure Project		
- Hungerford Water Supply Transfer Pump x 1	\$338,000	Council
- Hungerford earth tank submerge pump replacement*2		
- Hungerford - Replacement of Tank		
- Thargomindah - Finalisation of Water metre installation		
- Thargomindah - Finalisation of Bore 2 connection		
- Cooling Plant discharge pipe		
- Cooling Plant Battery container Shade Structure		
- Cooling Plant - Additional Filters		
Sewer Infrastructure Project		
- Thargo Pump Station-Component Replacement	\$92,000	Council
- Sewerage Pump Station Electrical Upgrade		
- Sewerage Pit Infiltration Reduction		
Plant Replacement		
- Small Plant	\$2,742,064	Council + Trade-in
- Vehicle Replacement		
- Major Plant		
Flood Damage 2021 & 2022 Events	\$4,000,000	QLD Reconstruction Authority

Chief Executive Officer Amer Tawfik

Kullilli – Council Advisory Committee

Council approved forming an advisory committee with Kullilli Bulloo River Aboriginal Corporation. One of the key objectives is increasing cultural awareness of Kullilli People heritage connection to the area. The committee will be an avenue for information and idea exchange between Council and Kullilli people. Some of the initiatives the committee will be working on, is developing land management such as introducing Aboriginal burns, outlining some of the benefits in terms of reducing the risk of bushfire, through removing some of the undergrowth to create opportunity for native grasses to return and re-establish, which in turn stimulate and encourage biodiversity. Another task will be designing signs for various shire locations with information on the history of Kullilli country and provide information from Aboriginal perspective. Among a long list of items on the agenda for this committee, is developing ideas to establish a workshop for producing Aboriginal art effects, bush tucker and medicinal products. The committee will be a conduit to advice Council on capital works matters through increase cultural awareness to preserve the rich history of Aboriginal people in the area started some 65,000 years ago.

Hungerford

Council crews are completing maintenance Grading on Hungerford Road, with Mook and his crew working on the northern section, leaving Clancy heading north from the Hungerford end.

A major achievement that made the Hungerford residents appreciative of the road crew was repairing and sealing the Paroo River crossing. The concrete crew will finish up the work by adding protection margins over the next few days to ensure the integrity of the crossing considering high probability of a rare “triple La Niña” that would bring flooding rains and cooler weather for the third summer in a row.

A new stainless steel kitchen installed by Ago Vires at Hungerford Hall under the Works for Queensland Funding, it looks like a million dollars, with residents Doug Clifford and Sheree Parker pleased with the outcome; project like this makes you proud of what our local community can achieve together.

What made the kitchen looks more interesting, is all the merchandise and display items for tourists, it is an excellent way to use this beautiful facility.

Green Country with Lots of Road Work Ahead

The land is looking great and there are lots of nice places to visit and see, taking advantage of the kind weather, one of the hidden treasures around Hungerford is the Budjiti Lookout at Currawinya National Park.

New Hamilton Gate Road

I completed an inspection on a few shire roads; although I'm the CEO and my official job is to sit behind a desk and push paper; I like to see the issue myself when I receive a complaint or a problem from residents they want Council to fix. One of these was the low formation level on sections of New Hamilton Gate Road, which runs from Hungerford in a southwest direction towards the NSW border. The road needs building up as it has been graded down over many years, which make susceptible to small rain events. This is a road that continues across the state border towards Wanaaring in NSW.

The Mirintu Access Road connected to the western end of Hamilton Gate Road is in similar condition and requires forming and re-instating drainage. The road terminates at the homestead, a place with lots of potential, an area where many tourists would love the opportunity to visit and explore. Should owners be interested in this market, Council's Tourism and Economic Development Manager Tamie Warner will welcome such inquiries and guide them through available options.

I came back to Thargo via Dribbler Bore Road, 83 km route which connects New Hamilton to Bulloo Downs Road, probably from shire staff only Mayor Tractor knows this road from his grading days a million years ago; the road had similar issues low formation, and overgrown vegetation with nowhere for the water to go but to run on the road surface.

What we ideally want our roads to look like, is similar to what the road crew had done on Hungerford Road, they started by clearing the vegetation and accessing roadside material to raise formation allowing the road to drain. This is essential to have durable roads that can withstand storms with limited damage.

We have a plan in place, a five-year plan that will achieve the results our community aspires too.

Rural Services

Phone, email and face to face consultations with landholders during the month on topics including, road conditions, RACQ Project, RBE Renewals, wild dog management, Excel spreadsheet workshop, weeds and second QFever Clinic. Properties consulted during the month include Nappa Merrie, Omicron, Epsilon, Orientos, Tickalara, Bulloo Downs, Dynevor Downs, Thargomindah Station, Wiralla, Autumnvale, Yakara, Boodgherree, Kilcowera, Moombidary, Nockatunga, Naryilco, Durham Downs, Picarilli, Bingara, Besm, Nooyeah and National Parks. Property visit to Moombidary and face to face consultation in town with Kilcowera, Nooyeah and Boodgherree.

Thargomindah Town Common Boundary Fence The fence line has now been cleared and a purchase order issued on 8 June 2022 for the of materials. A local contractor will be looking at the job and providing a quote in July. This project is being funded under the Works for Queensland Program.

SQ Landscapes provided \$10,000 funding towards weed work on Dynevor and Werewilke to treat Devil's Rope and Parkinsonia in partnership with National Parks. Due to the wet conditions, this has been extended into the new financial year.

21 dogs trapped by Rural Lands Officer 5.6 tonne dog baits laid 5.6 tonne pig baits laid 2 scalps presented Ordinary Council Meeting Agenda 19 July 2022 Item 14.10 Page 64 Areas inside the Wild Dog Barrier Fence highlighted in pink did not participate in the May 1080 Coordinated Baiting Program, these properties undertake other management methods including trapping and shooting.

Community Drought Support 2021-22 The Charleville Neighbourhood Centre is working once again with the Department of Communities, Housing and Digital Economy to offer Drought funding to the Bulloo Shire. This funding has been secured through the Queensland State Government's Community Drought Support Program 2021-22. This funding was fully exhausted at 30 June 2022. A new allocation for 2022-23 has been secured by Council.

Flexible Financial Hardship Funding (Rural Solutions Qld) Community Drought Support Flexible Hardship Funding is available to farmers, farm contractors, farm employees, tradespeople and non-farming small businesses and retail operators who rely upon regional agricultural economies. To be eligible, you must reside within one of the below Local Government Areas (LGA) and must demonstrate that your financial position has been negatively impacted by drought over the past two-year period. Support is available via a prepaid EFTPOS card which can be utilised for purchases at designated outlets within your LGA such as grocery stores. Rural Services team have been assisting community members to complete application forms for this funding. Positive feedback has been received from local businesses about this program.

Road Services

Brad Chatfield has been working on the Innamincka road shoulder grading, until two weeks ago when he went to Hungerford to take over as Lance Clancy went on two weeks leave, so Greg Brown has once again stepped up and taken over the job for Brad, and has been doing a great job.

Mook Beavis & Nathan Hortin both crews have been working together as one team on the Hungerford road doing light to medium formation grading, they have been cutting down the very high batters filing the deep table drains then cleaning up right out to where the trees have been cleared, this is taking a bit of time now but future gradings will be a lot quicker as we are trying to repair a lot of damage that has been done of many years from the way that these roads have been graded as table drains were so deep that we couldn't get the division drains cut deep enough to be able to drains off water.

Lance Clancy has been in Hungerford town we have cleaned up and removed all the trees and bushes from all the streets that were surveyed many years ago but never developed, then graded them. As the road going to the rubbish tip was cutting across a private block of land, when we cleared the rest of Camopus street up to Arcturus street, then gravelled them up to the rubbish tip so as they have a gravel road to the rubbish Tip.

We graded the road to the Airstrip and sports grounds, as there use to be a lot of water run off the airstrip it would follow the roadway right through to the main street in town, we cleared trees along the roadway and built Whoa-Boys along the roadway to try and divert the water off the roadway.

The Paroo River crossing across in Hungerford, we had the Stabiliser go over it and put in a Slag/Lime, this was then shaped with a 3 % cross fall up stream, this will be bitumen sealed on the 21/07/2022. Once this seal is completed we will then reinstate new guide posts and new depth gauges. Ordinary Council Meeting Agenda 19 July 2022 Item 14.2 Page 34

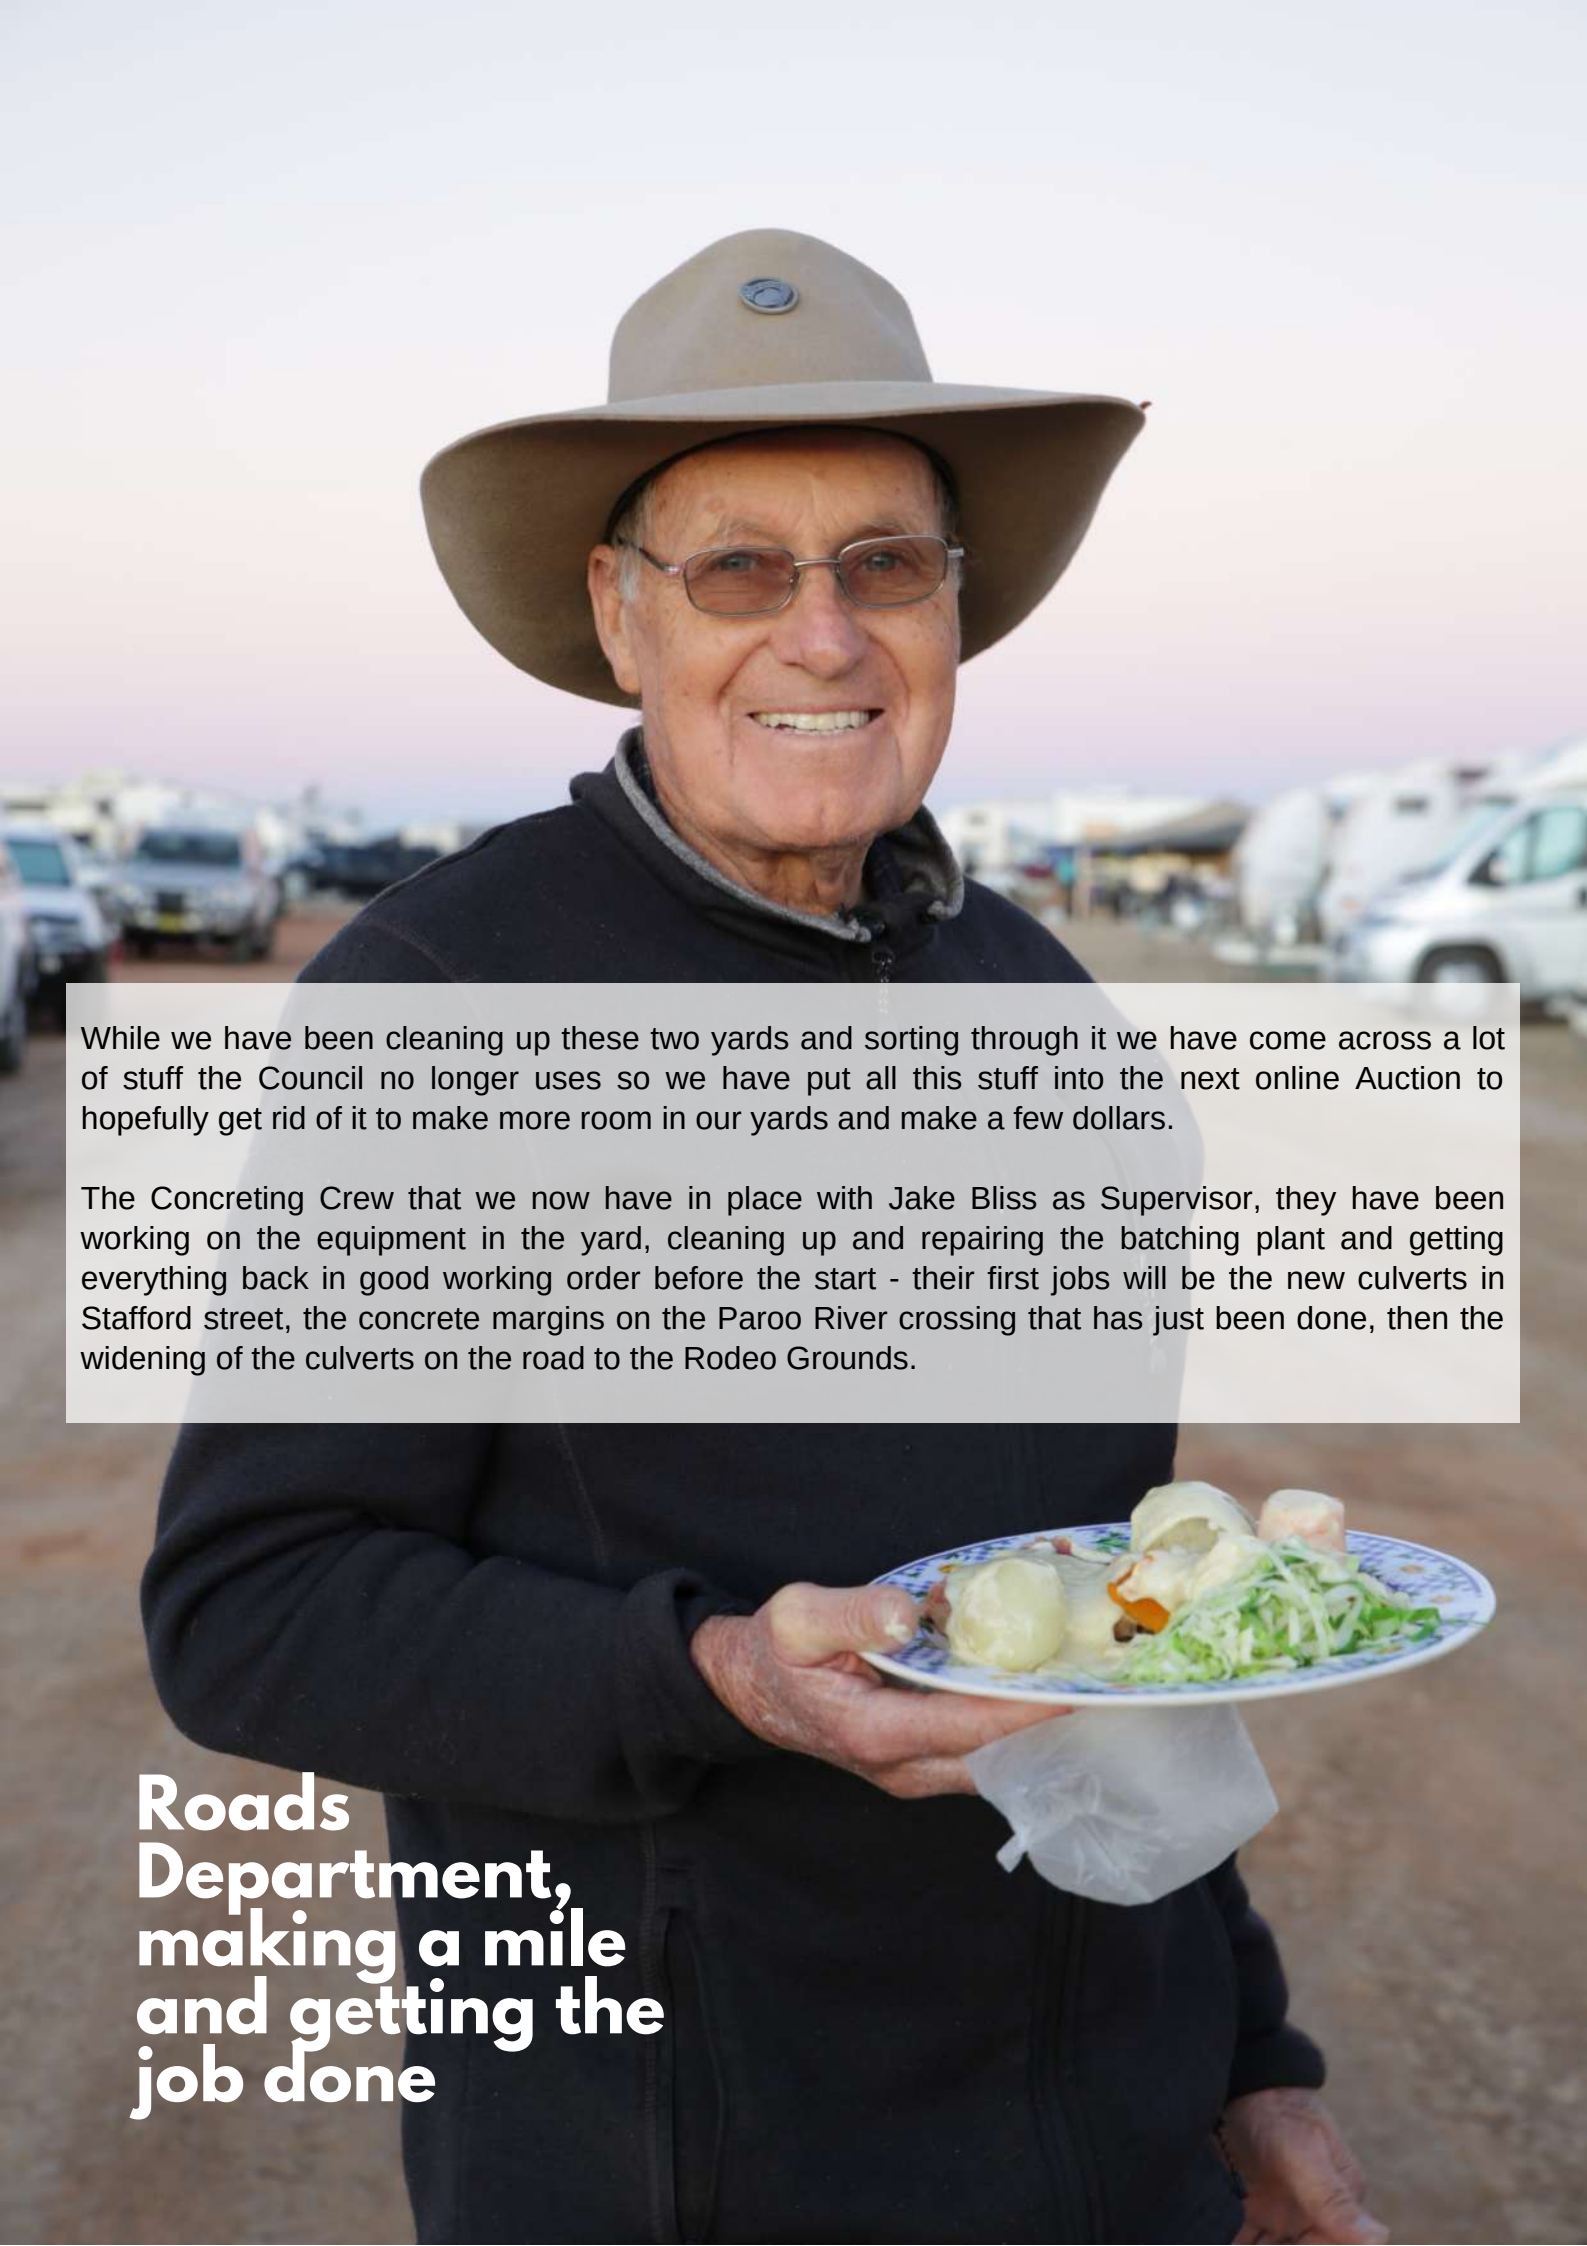

Clancy is now working on light to medium formation grading on the Hungerford road, working up to where Mook & Nathan's crew started, which was just South of the New Hamilton Gate road.

Maintenance Crew - They have been working on a lot of different jobs, Brenton & Braydon have been replacing Guide Posts on the Bundeena Road, Warri Gate road, Hungerford road and Innamincka road. They have a lot of guide posts to replace yet on these roads because we have been doing a lot of shoulder grading so as a lot of the shoulder has been completed they should soon be catching up with guide posts.

We have also been doing a lot of sign replacement on Hungerford road, Bulloo Downs road, Soona Crossing road and the Innamincka road, this will be an ongoing job yet for some time as a lot of the road signs have been in place for over 30yrs and are well past their use by date.

We have also been cleaning up the top yard removing a lot of rubbish that should have been put in the dump from the start, also rearranging a lot of the stuff and putting it in some sort of order.

We have also been cleaning up and rearranging the Concrete Yard, where a lot of stuff has just been dumped there instead of the Dump o the Rodeo Grounds. Continued Next Page.....

While we have been cleaning up these two yards and sorting through it we have come across a lot of stuff the Council no longer uses so we have put all this stuff into the next online Auction to hopefully get rid of it to make more room in our yards and make a few dollars.

The Concreting Crew that we now have in place with Jake Bliss as Supervisor, they have been working on the equipment in the yard, cleaning up and repairing the batching plant and getting everything back in good working order before the start - their first jobs will be the new culverts in Stafford street, the concrete margins on the Paroo River crossing that has just been done, then the widening of the culverts on the road to the Rodeo Grounds.

Department,
making a mile
and getting the
job done**

Corporate Services

Been a super busy month of July in the Tourism Centre and pretty well all over town!!! Everywhere you looked there were more and more visitors exploring our wonderful community. The Channel Country Music Muster attracted just over 200 vans to camp on site at the rodeo grounds, however both Caravan Parks were also extremely busy with both muster fans and general visitors.

The comments that we receive on a daily basis are above amazing, it makes us very proud to be Thargomindians!!

Clean, tidy, litter free, friendly, self-pride and the funniest one I find is even the messy places seem organised. Keep up the great work Thargomindah residents and lets all keep encouraging these wonderful visitors to stay a little longer and keep our local economy turning.

Music Muster feedback

Delmar Broadbent

Thank you to all the wonderful Festival goers and locals at Thargomindah who helped us when we were broken down in the town.

We had a lovely 12 day stay in the beautiful friendly town.

Did not have plans to go to the festival but we did the whole 6 days. And it was fantastic.

Particularly, a big thank you and hug for Ray the bus driver and his beautiful wife Marlene.

Nothing was too much trouble for either of these two volunteers. Made getting out to the festival each day very easy.

The update is, we are parked up in Toowoomba. Had 14 hour trip in from Thargomindah in the tow truck. With Michael Parker from Turnouts. The whole Turnouts crew, Rob and Helena and the others were so kind and helpful. Michael has the patience of a saint and a great man. Thank you. Hope I didn't talk you to death.

Thank you to festival going BT 50 Mazda group in Yowah who also assisted in our hour of need! Turnouts tow truck with Robert at the helm also did the recovery from Yowah.

Loved the meals at the roadhouse. Passed on a few recommendations too!!

Our vehicle is fixed here at Mazda. So, after having some fun with the grandies will head home on Sunday.

Thank you one and all once again. We WILL be BACK next year!!

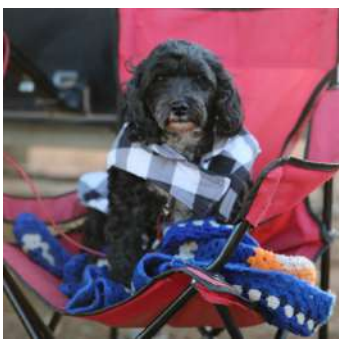

Olive Bice Oam

Big congratulations

Jed & Trudi and team I have been watching with interest on face book I can't be there but boy I certainly enjoy pics and comments well done.

Anonymous Feedback forms

1. Sorry I cannot think of anything to improve on with your event, it's the best we've been to.
2. Everything was wonderful, we have attended the whole three years now.
3. Excellent organisation and communication to the campers was terrific.

Varroa mite (*Varroa destructor*) preparedness resources

Information pack

Purpose

This pack has been developed to help promote the awareness of Varroa mite (*Varroa destructor*) to beekeepers.

You are welcome to optimise the content of this pack to suit your needs. It can be used to inform newsletter content and/ or social media posts.

Who should use this pack?

This pack is specifically tailored for beekeepers, and we welcome the following organisations to share:

- Queensland Beekeepers Association
- Australian Honey Bee Industry Council
- Queensland beekeeping groups, including hobbyists
- Local government and councils
- Pest controllers

Current situation

A [Movement Control Order](#) is in place in Queensland to keep varroa destructor mite (varroa mite) out of the state. This order restricts the movement of bees, beehives and bee products (including honey) from NSW into Queensland.

You are allowed to enter Queensland with bees, beehives and bee products (including honey) from other states and territories that are deemed to be free from varroa.

There is currently a standstill in place in NSW which applies to the movement of bees, beehives, bee products and used bee keeping equipment within the state.

How we can help you

A [permit system](#) has been established to move bees, hives, used beekeeping equipment and bee products, including honey, into Queensland from NSW under certain circumstances.

What can you do?

- If you own or keep at least one hive, you must [register as a biosecurity entity](#). Registration is free for non-commercial beekeepers*
- Remain on alert for the presence of varroa mite.
- Look for unexpected hive deaths, deformed bees, bees with parasites, poor brood patterns and dead brood.
- Conduct surveillance on your hives as soon as practicable in the form of sugar shaking, drone uncapping or alcohol washing.
- Immediately report any of the above to Biosecurity Queensland on 13 25 23.
- If you're unsure or need a reminder on how to action these, access the [Queensland Government eHub—Help protect our bees—your questions answered](#).

*native bee hives do not need to be registered.

Help is available

- Biosecurity Queensland 13 25 23 or info@daf.qld.gov.au
- [Queensland Government website](#)
- [Queensland Bee Association—Varroa Mite Portal](#)
- [National information](#)

- [NSW Government website](#)

Draft social media post

Varroa mite (Varroa destructor) has been detected in New South Wales.

A Movement Control Order is in place in Queensland restricting the movement of bees and bee hives from New South Wales into Queensland to keep Varroa destructor (varroa mite) out of the state.

You will continue to be allowed to enter Queensland with bees and beehives from other states free from varroa. There is currently a standstill in place in NSW which applies to the movement of bees, bee hives, bee products and used bee keeping equipment within the state.

The Queensland Government is working closely with [Queensland Beekeepers' Association Inc](#) (QBA) to assist in the national response efforts and support the surveillance activities to protect the Queensland honey bee industry.

Beekeepers, please monitor your hives and immediately report unexpected hive deaths, deformed bees, bees with parasites, poor brood patterns and dead brood to Biosecurity Queensland – call us on 13 25 23.

For the latest info or to ask a question go to our online portal

Feast Around the States

Complete the crossword puzzle below and learn about the Thanksgiving specialty of some states. Additional clues about the state are also given to help you out.

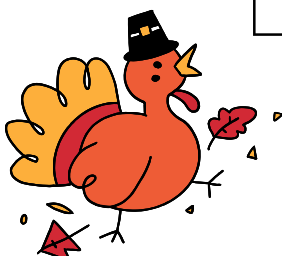

Across

- 2 The Sunflower State; cranberry salad
- 5 Golden Gate Bridge; oven-baked salmon
- 6 The Gem State; baked potato
- 7 Corn and motor racing, corn pudding

Down

- 1 Mississippi River; pecan pie
- 3 National parks; traditional roast turkey
- 4 Northern lights; classic cheesecake
- 5 Hot springs; glazed ham

Naturally occurring fluoride in Thargomindah's drinking water

Fluoride is a natural element often found in water, plants, rocks, soil, air and some foods. Research shows that fluoride helps protect teeth against tooth decay. Regularly drinking water containing small amounts of fluoride can help reduce tooth decay for people of all ages.

What is the drinking water standard for fluoride?

The Australian Drinking Water Guidelines recommend an upper limit of 1.5 milligrams per litre (or parts per million) of fluoride in drinking water. This is equivalent to one twentieth of a teaspoon of fluoride in a bathtub of water.

Many Western Queensland towns source their drinking water from groundwater (i.e. bores). These water sources can contain natural fluoride levels that are above this limit.

Monitoring of Thargomindah's drinking water supply has indicated that it contains naturally occurring fluoride in the range from 1.6 to 1.9 milligrams per litre. This is slightly above the recommended limit in the Guidelines.

Conventional water treatment processes and most domestic water filters do not reduce the level of fluoride present in your drinking water.

What are the risks of elevated levels of fluoride in drinking water?

There are two side effects that have been associated with elevated levels of fluoride in drinking water. The first is dental fluorosis and the second is skeletal fluorosis, which only occurs with very high levels of fluoride in drinking water.

What is dental fluorosis?

The main side effect associated with elevated levels of fluoride in drinking water is a condition known as dental fluorosis.

Dental fluorosis is largely an aesthetic concern and most often occurs as a mild change to the appearance of tooth enamel. It can appear as small, almost invisible, white lines in the enamel. More rarely, and in more severe cases, it can appear as pitting or staining of the enamel.

Dental fluorosis can occur if too much fluoride is ingested when teeth are developing at around one to four years of age. Teeth already present in the mouth are not at risk of developing fluorosis.

The risk of developing dental fluorosis, or experiencing more severe forms of the condition, increases with greater levels of fluoride in drinking water. However occasionally dental fluorosis occurs in developing teeth at relatively low fluoride levels.

Showering or bathing in water containing high levels of fluoride does not increase the risk of developing dental fluorosis.

What can I do to minimise the risk of dental fluorosis?

Most domestic water filters do not reduce the level of fluoride present in your drinking water. Parents can reduce the risk of children developing dental fluorosis by:

- Ensuring children do not take fluoride supplements (e.g. fluoride tablets and/or drops).
- Cleaning children's teeth with low fluoride or fluoride free toothpaste until the age of 18 months, unless otherwise recommended by a dentist.
- If fluoridated toothpaste is used, ensuring only a pea-sized amount of toothpaste is used and that children spit out after brushing and rinse their mouths with water.
- Monitoring and restricting other sources of fluoride in their children's diet (such as seafood and tea, which are known to contain fluoride).
- Providing bottled drinking water with low fluoride content where possible and not substituting bottled drinking water with soft drinks or other drinks high in sugar.
- Breast-feeding infants where possible and using bottled water to add to infant formula.

Help and assistance

For general enquiries contact your local Public Health Unit:

- Darling Downs Phone: 4699 8240

For more information:

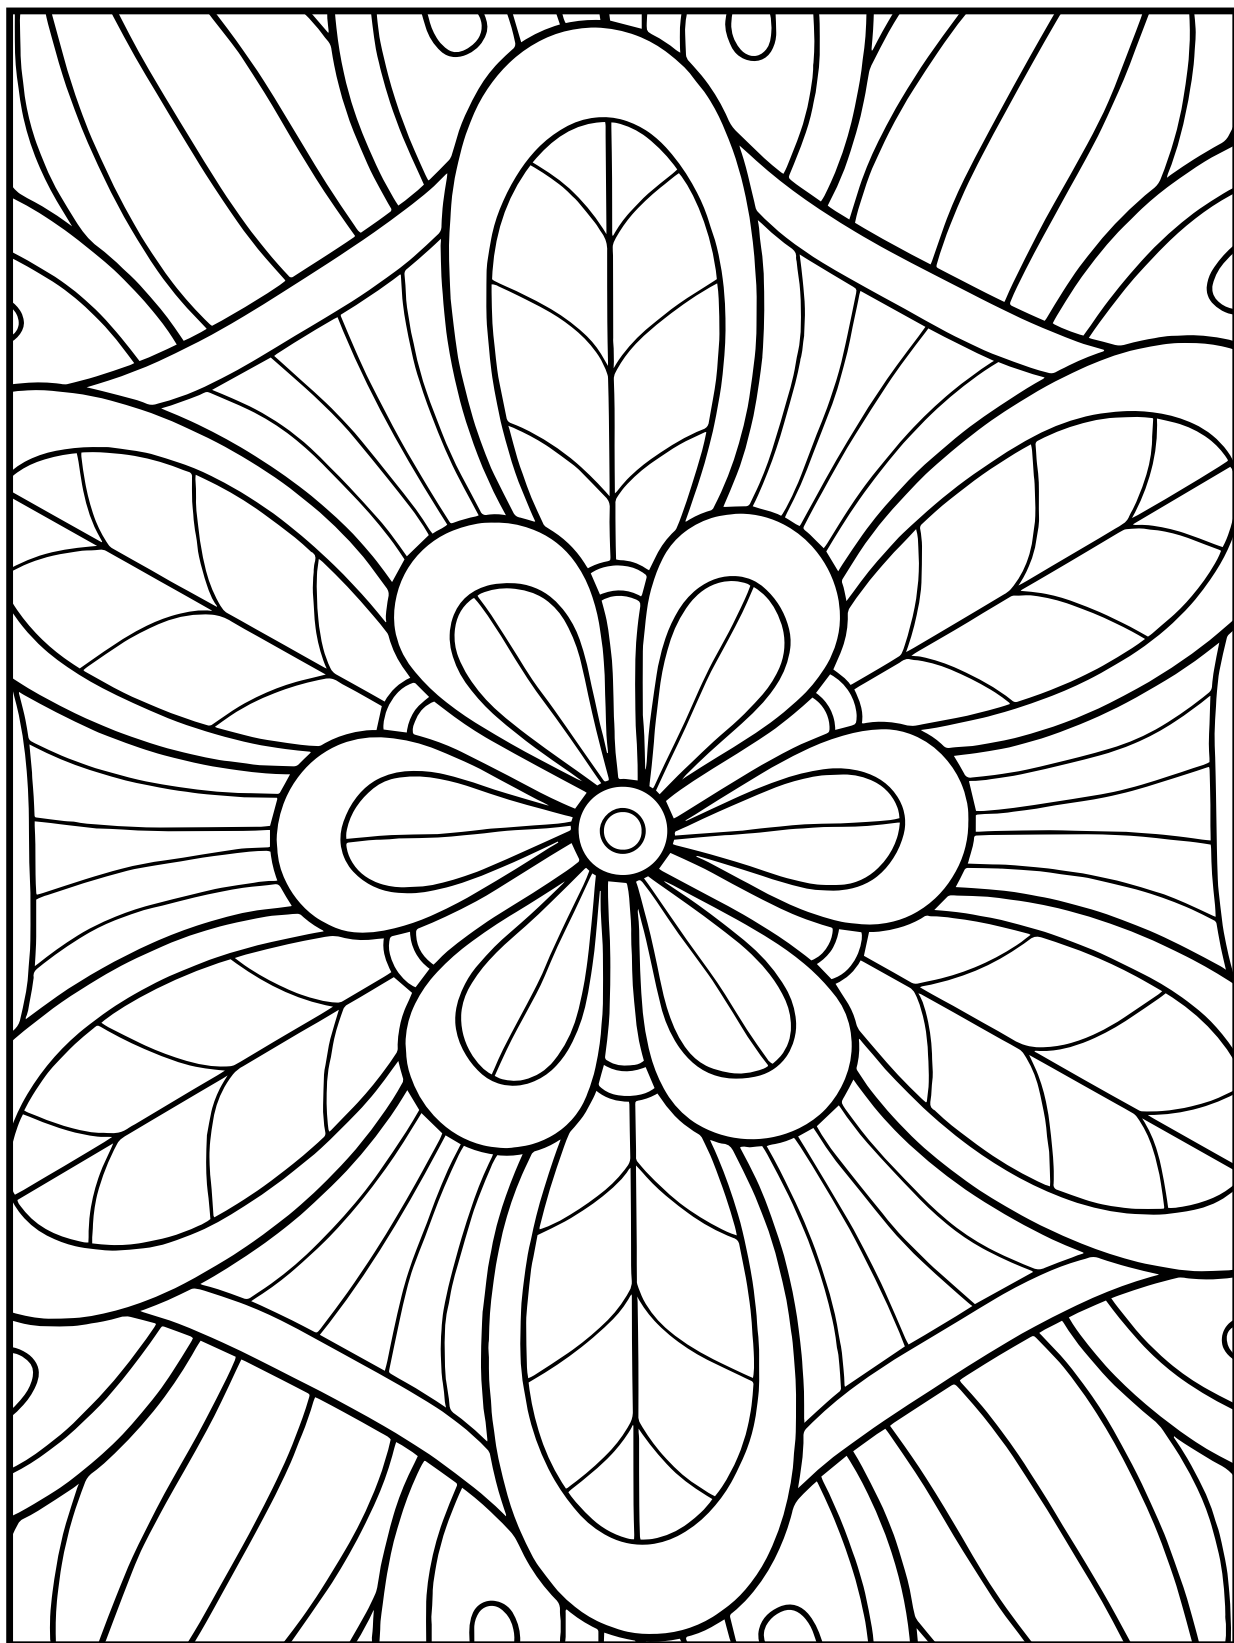

Contact your dental professional

- Visit www.health.qld.gov.au/oralhealth
- Call 13 HEALTH (13 43 25 84) for confidential health advice 24 hours a day, seven days a week
- Email oral_health@health.qld.gov.au

The information in this fact sheet applies only to those parts of Queensland with levels of naturally occurring fluoride above the drinking water Guideline or 1.5 milligrams per litre. It does not apply to locations with standard levels of water fluoridation.

Public Information

Bulloo
Shire

Garbage Collection Service for Residential, Commercial and Industrial Properties within Thargomindah

Council has designated waste collection days for Residential, Commercial and Industrial Properties within Thargomindah.

Commercial and Industrial collection days are Monday and Thursday;

Residential waste will only be collected on a Thursday.

Council request that residents place their wheelie bin, with the wheels facing away from the road, on the footpath adjacent to the kerb, or a metre back from the bitumen where no kerb and channel exists. Please ensure your bin is placed out for collection the night prior or before 6.30am on the day of collection to ensure your bin is emptied.

It has been noted that some residents have been placing more than one bin out for collection. Multiple bin collection is only available to those who have requested a second bin. This service can be available to you by applying to Council for a second bin and paying any relevant fees and charges.

Please note, where a public holiday falls on a designated waste collection day, the waste will be collected on the next business day.

Tender T2022-2023-101

Supply & Delivery of 4 x New Auto 4WD SR Dual Cab Utilities, 1 x New Auto Diesel Small SUV, 1 Auto Diesel New Medium SUV, 1 x Toyota Landcruiser Workmate 4WD Ute

Submission Close 2:00 PM on Friday, 19th August 2022

Bulloo Shire Council is seeking a tender for the Supply & Delivery of the above items to Bulloo Shire Depot Thargomindah Qld 4492.

Please complete and return a signed copy of:

- Tender Form 01 – Price Summary
- Tender Form 02 – Minimum Specifications
-

Failure to submit a fully completed and signed Tender Forms 01, and 02 may result in your submission being deemed non-conforming and may not be considered by Council.

Documentation can be obtained by visiting Council's webpage at
<http://www.bulloo.qld.gov.au/tenders1>

Tender shall be marked "Confidential – T2022-2023-101 – Supply & Delivery of 4 x New Auto 4WD SR Dual Cab Utilities, 1 x New Auto Diesel Small SUV, 1 Auto Diesel New Medium SUV, 1 x Toyota Landcruiser Workmate 4WD Ute *Tenders may be submitted:*

In Person Tender Box – at Council Chambers 68 Dowling St, Thargomindah, 4492 QLD
